

MBA (Finance)

Overview of the Course

The MBA (Finance) purposely focuses on developing careers in the financial sphere, especially to financial operation of the multinational corporation in an environment of open and integrated financial markets. Differences between foreign and domestic investment, financing international projects, sourcing of subsidiary finance and management of country risk are all covered. This is harmonised with the study of managerial finance risk appraisal and management techniques such as hedging and option pricing. You will experience a challenging and stimulating intensive course in general management, with a financial perspective, to enhance your personal and career development. To facilitate this you will use, share and reflect upon your experiences alongside those of others in your Learning Team. Broadly the MBA (Finance) aims to provide you with a thorough grounding in Business Finance Management via integrating the main functional areas through the application of strategic financial management.

Organization of Studies

The length of the award is two years. The delivery pattern is such that you will study one module at a time following a sequence at the beginning of each academic year. Each module will be delivered for a period of two months divided into the following three periods:

Preparatory period – three weeks

Face-to-face delivery period – two consecutive weekends

Revision & assessment period – three

The research phase runs throughout the whole award. By the end of the taught modules, you will have approved dissertation title and have dissertation mentor designated.
